

The Speed Cleaning Machine powered by PRC Technologies Ltd.

AquaMaof is committed to developing efficient, high quality products for Aqua-farming as well as for the fish processing industry. AquaMaof has successfully penetrated the fish processing industry and is proud to offer its customers the innovative Speed Cleaning Machine the world's only fully-automated gutting and scaling machine.

The Speed Cleaning Machine uses only high-pressured water jets, which are capable to eviscerate and individually scale 30 fish per minute. The compact Speed Cleaning Machine is operated by a single person. It is fast, efficient, easy to use and is virtually maintenance free. From the world's largest fish processing plants to supermarkets, fish stores and restaurants of all sizes, the unprecedented advantages for using the durable Speed Cleaning Machine are clear.

PRC
